- 24 God Provides
- 31 Explosive Expansion

Remember to pray for
School Administration
& Carter Middle School

As we start a new year, we continue to look at what God has been doing and where Christ is leading.

WHY MEET?

1. God SAYS SO (Heb. 10:25)

Our Worship and study is a time of encouragement as we see one another. People returning who we have been praying for is a boost to our spirits. We also have opportunity to share ideas, become aware of needs we can meet, and what resources can help one another with.

Hearing and seeing others making the effort to come and meet builds us up and encourages. We are able to benefit from different views and experiences as we discuss God's Word. New insights are gained. We lift each others spirits with humor and insights (also from the becoming very common: "stealing Paul's Thunder"!).

Through all of this, we are drawn closer to God. Seeing God at work in our lives (individually and collectively) builds our faith. Together, we see what He is doing and our vision grows.

WHY MEET NEEDS?

1. Jesus SAYS SO (Matt. 25:34-40)

Helping people with food and other needs in life are ways that we also serve Jesus. Food Distributions each month helps hundreds with food. Used to inspire and help show available resources for hygiene needs, winter coats, shoes and even toys for children. Helping others has blessed us with a sense of being a

We see the community coming together and Christians uniting. These efforts have led us to know of extra resources that are available that can help others (vests, light wands for traffic direction, food donations, lighting, sound equipment, etc.). This doesn't even touch on the impact of the actual recipients (will be over 8300 people helped in 2020 alone) or inspiration to others.

WHY REACH OUT?

1. Jesus SAYS SO (Matt. 28:18-20)

Social Media, Community Involvement, Mission Support, Online Studies, Online Resources for Families and Support for Christian Workers around the world are other areas that keep us busy. Sharing the scriptures and devotions daily (via Social Media); keeps us focused. Hearing and receiving feedback encourages us as we realize how God is using and working through us. Involvement with others, underscores the wisdom of God and how He has provided answers that people are searching for. Servants of the Lord are encouraged and inspired to continue and possibly try new areas of ministry. We continue to be amazed that limited resources do not limit God's ability to minister. We realize through the creation and sharing of lessons, resources and ideas; how God has blessed us through so many others through the years.

CONCLUSION?

Living as God instructs is BEST!

Food Distributions
