

Let God Speak to YOU!
Communication is important in EVERY relationship

<http://pinerunchurch.org/reading-his-word.html> .

This month :

OLD TESTAMENT

Through the difficult times in Egypt, thereat from the Egyptians and challenges in the desert, God forges His people into a strong nation. Uniting them through common experiences that will become the basis of a national identity. God will help you through the challenges you face, to strengthen and prepare you for greater heights of service.

NEW TESTAMENT

Jesus shows how to live a life of compassionate service, helpful teaching and having a close relationship with our Heavenly Father. Be inspired by His love, touched by His tenderness, impressed with His Power. Understand why the Apostle Paul states that we are more than conquerors.

Matthew focuses on how God is keeping His promises about the Messiah. Mark will focus on the power that Jesus demonstrates over all areas of life.

Focus on all that GOD DOES to share His love and show us a better way to live.

REMEMBER: Write down any questions you might have and bring them on Sunday so you can ask them (at Bible School, or after worship!)

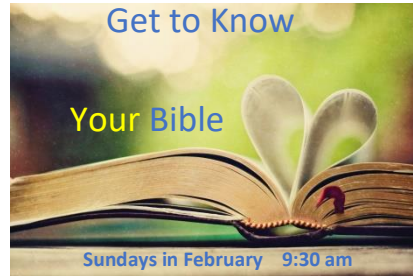

Take Time to Talk to God!

Enjoy your time with God by reflecting on His faithfulness and blessings. Praise Him for who He is. Pray for your loved ones and for God's will to be done. Sk that He guide and

strengthen you each day as His Spirit works in your life.

"Doing More in '24!"

Our second consecutive year reading through the Bible will be productive. More of the people and events will be familiar and you will be able to add more depth of understanding. You will begin to see more of God's purpose of allowing things to happen and how He can work despite Satan' attempts to sabotage.

Each week we begin with addressing any questions people might have from their Bible reading! Bring your questions!

New Testament Study Guides Available

The Study Guides that you can pick up each week are designed to complement the other studies and sermon. Together, they will help equip you as you reach out to family and friends.

Use the study to keep you in God's Word and focusing on what God is wanting to teach you. You can pick up or make extra copies to share with others and have your own "group study". Come back with questions from your group and we can help give you insights on how to address those issues.

Let God work through you to help others!

It is humbling to see God at work; putting pieces together long before we ever see the "Big" picture. The journey that we have been on as a congregation, has prepared us to help our community. God has blessed us to be a blessing

We have seen how god is able to bring us together, see the value in others, learn how to work together, what can be accomplished when we reach out to God and others, how He can help us through the greatest of challenges.

Now we find our community:

- Seeing need to work together
- Wanting to help people grow in character
- Find greater power than they alone can muster
- Desiring to show compassion and help those in need
- Looking for spiritual guidance

Many of the ministries that we have been led to, dovetail with where our community is now wanting to head.

LIVE STREAMING & MORE!

Livestreaming begins around 10:30 AM on Sundays. On our Facebook page.

Keep up via our website:

Pinerunchurch.org

Our website is setting new records in pages viewed and visits. Among the most popular pages are the Lowell Mason Prayer Walk Pages. Check them out (along with the studies and other resources) and share them with others!
