

Lowell “Buddy” Mason

2017 was a year of tremendous challenge for Buddy. Months of tedious recovery and rehab from his neck surgery a year ago have been endured. Through this, he continued to share meditations on Facebook. The Lord blessed him with a vehicle that allows him to ride his scooter into it. This frees Judy from having to lift the scooter onto a platform on the back of their vehicle. This Fall Buddy was able to resume some singing engagements with his son, Duke. He recently began another 6 week rehab that will focus on enabling him to walk again.

2018 will be the 71st years of his Gospel Singing ministry. Pray for Buddy and Judy as they continue to share God’s Love through: music, sending Bibles to Russia, devotional messages on Facebook and Food and water distribution through “Operation: ‘We Care’”.

David & Dawn (Berry) Degler

2017 finished with a flurry of effort as recruiting College students for 2018 intensified during their

Christmas break. The goal is to recruit 330 students to participate in the Christian Ministries in National Parks during the summer. Students are exposed to ministry (leading studies, worship and more) and visitors to the National Parks are exposed to God’s love. David works at recruiting and then training the students. He oversees the program in Colorado.

David and Dawn are also active in a local congregation where they serve, as well.

Pray for lives to be touched through them this coming year!

David Anderson

Land prices are extremely high in Hawaii. Churches can hardly afford to have their own building, so groups use the “home church” model that is found in the book of Acts. Gathering in someone’s home, cuts down the overhead cost, volunteers do the preaching and teaching (cutting down the payroll) and enabling more resources to go right back into ministry.

David has been active during his time in the Navy, representing Christ to his fellow service people, but also in his participation with a local home church. This past year, he has continued his education to better equip him for service.

Pray for David as he continues to be used for God in Hawaii, among the locals and our armed forces in the region!

Teaching the Word (through our Website)

2017 has seen continued growth in the use of our website. Pages viewed were up over 50% from 2016, which had been up 20% from 2015! Over 5500 visits were made to our site this year!

People may view a 150 year old white country church as being limited in what they can do, but God has expanded our outreach far beyond our community.

Science and God articles, Bible Studies for Children, Bible studies for Adults, daily Bible reading programs, updates on our Missions and ministries are available 24/7/365 around the world.

Our popularity and diverse offerings of pages has resulted in making our site even easier for people to find. Simply typing “pine run church” into a search engine, will bring up our website on the first page of listing, if not the NUMBER 1 LISTING!

2018 will continue what we have started. If you have ideas for additional things to do with our website, let us know and we will see how God can use it to make an even greater impact!
