Teaching the Word (through our Website)

Website continues to set new monthly records for pages read compared to the same month in other years. After breaking 2000 pages read several times in 2018, we are “down” to start 2019. We still surpass our previous best in January by over 400 pages and are on target to do the same or better in February.

To help people keep up with the “mobile” food distribution, the home page of our website contains a link to the next Distribution.

While we don’t have the workers and youth to make a VBS viable at this time, we ARE working to help make offerings in Clio available.

We are working to gather information and help coordinate the VBS’s are Clio area churches. Sharing costs/resources will allow each congregation to “do more”. Compilation of the dates, places, times and themes will enable families to more easily plan and participate in multiple VBS’ through the summer months.

This is just one more way, God is working through us to unite believers and make a greater impact in our community!
