

**Let God Speak to YOU!**  
**Communication is important in EVERY relationship**

<http://pinerunchurch.org/reading-his-word.html> .

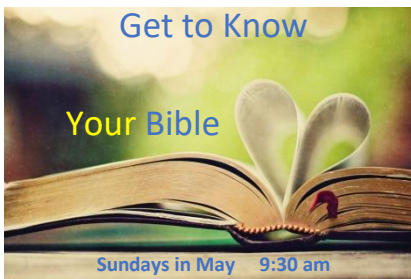

Having a PERSONAL relationship with God provides peace and comfort during trying times. Reading in the Gospel of Mark, you are reminded daily how Jesus changed the world for those that turned to Him. Follow along, go to our Facebook page each day for a devotional thought to go along with the days reading. Let God speak to you as He watches you through this crisis!

**Take Time to Talk to God!**

Last month we were focusing (and continue to focus) on the importance of humbling, praying, seeking God's face and repenting of our sins. Our daily "Prayer Updates" on Facebook also encourage you to be praying for: sick, health workers, vulnerable, Unemployed, government leaders, students/families and churches during this crisis.

Many of us have known individuals who have died from covid19. Keep praying for their families and friends to find the comfort and strength that God can give during this time.

"Battle Lessons" is our new series and is based on the book of Joshua. The people were heading into new challenges they had not faced, including unfamiliar territory. God

leads them through this and provides lessons that we can benefit from as well.

These studies will be available on our website, be included in packets we send out to members and covered in class (providing the Governor allows us to meet). Find the help you're looking for as you face this challenge; know you're not alone!

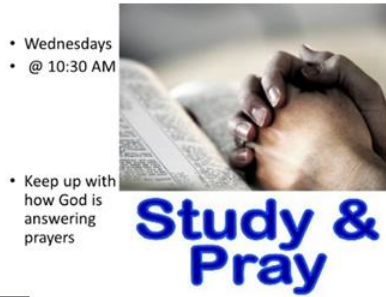

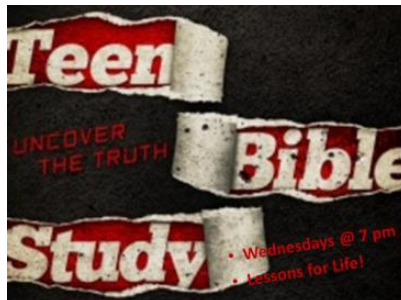

Figure 1 "Numbers"

Our weekly study in Numbers is now being printed and provided to all of our members in packets that we send out on a weekly basis.

This material covers the time when the Israelites were being led in the wilderness by Moses and the presence of God in the pillar (cloud by day; fire by night). You will see that they had good days, bad days; made good and bad choices, but God was with them every step of the way.

Learn from their mistakes, find strength and encouragement from God working with them!

Needless to say, the corona19 Governor mandate to stay in our homes, has limited the opportunity to have these home studies.

**Teen Training— Thursdays @ 7 pm**

**Cleaning and disinfecting the church is being done to assure a healthy environment for God's people. Unfortunately, the teens are not able to help with it, due to travel restrictions.**

**GOD CONTINUES TO BLESS!**

God has provided us with people who continue to give generously through this crisis. God has also used others who are now being blessed through our online ministry as well. This enables us to meet our financial obligations without having to go to the government for a "loan". This is critical for our long term survival, as we're not quite sure what the "terms" of those "loans" will be. We know that we are blessed by continuing to rely upon GOD for provisions!

Our

Puppet shows are based on the ministry of Jesus and can be found on youtube!

Titles include:

Rich Young Ruler; Lazarus Raised; Jesus is Alive; Nicodemus, Friend at Midnight, Great Wedding Feast, Jesus Loves the Children, Unmerciful Servant Newest shows are: Sermon on the Mount; Jesus in the Wilderness
