Working with people in society, you find that their approach to life is much different than what Christ has called us to.

The world emphasizes the pursuit of "your dreams and goals". This results primarily in a society where everyone asks, "what's in it for me"? Their level of involvement is determined by the amount of direct benefit. We end up with a "fractured" society where people are unwilling to get out of their comfort zone and help others (unless it benefits them).

Christ left the comfort and security of heaven to come to this world. His ministry did not focus on the structures He could build, the fame and fortune He could accumulate; or even securing a "better, more comfortable life" pursuing His pleasures. It focused on being there for others. Meeting their needs, helping them out and teaching them a "new" way to live (though actually it was primarily a "re-emphasis" of God's Plan to love God and love others.

Our ministry is focusing on helping other believers, our local schools, businesses and leaders, experience this type of living and the benefits that it produces. People notice and respond with appreciation and acceptance. We

begin to see their beginning to follow Christ's lead and start giving back. Investing in others and their community; results in a better, more blessed lifestyle for all that encourages us to continue to draw near to God.

Take time to examine YOUR life. As you go through each week, how are you letting God work through you to be a blessing to others? Are you getting out of your "comfort zone" and becoming involved? We are seeing the body at Pine Run growing in their level of commitment, but we know that this will be a lifelong journey as we walk with Christ.

Pray for God to work, be the example, minister to others, invite them to join us as we walk with Christ.

A brief look at our nation and world will remind you that there is still a tremendous amount of work to do! May God help and strengthen us for that work!
